LED light louver

REF	PICTURE	QTY
A	Diagram A shows the LED light louver being assembled with two mounting brackets. Two circular callouts provide detailed views of the bracket-to-louver connection. The left callout shows a bracket being slid onto the louver's end, while the right callout shows the bracket being secured with a screw.	1PCS
B	Diagram B shows a single L-shaped mounting bracket with a pre-drilled hole for a screw.	2PCS
C	Diagram C shows a single 4.2x25mm screw, which is used to secure the mounting brackets to the louver.	4PCS

What you need?

glove

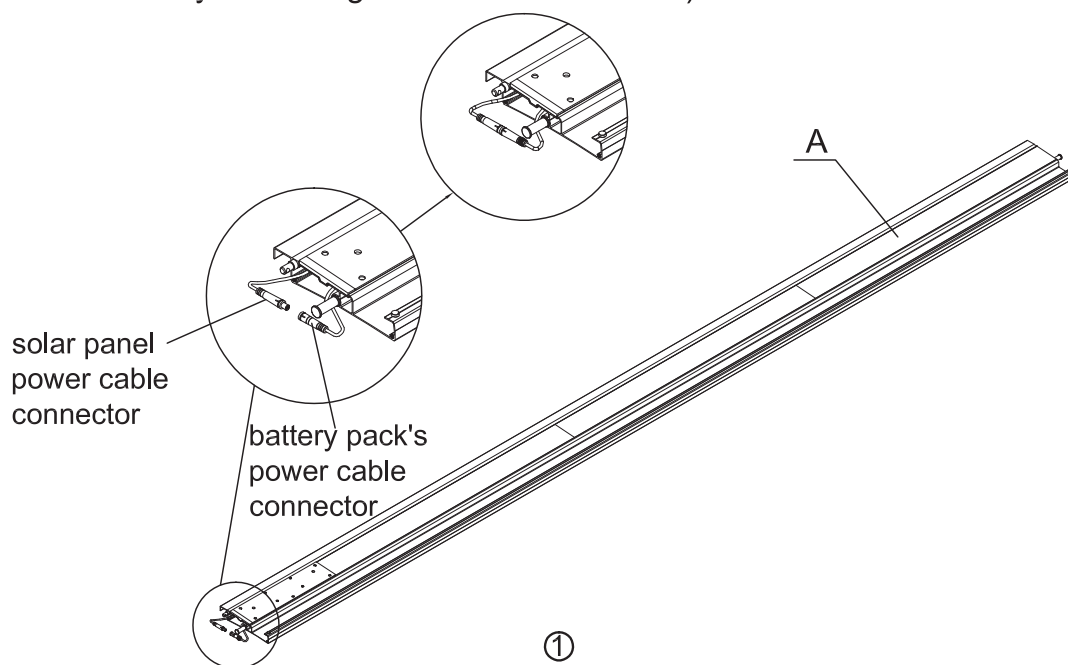

knife

electric screw driver

Connect solar-panel power cable connector and the battery pack's power cable connector, keep pressing the remote control for three seconds to check whether the light belt is on and whether there is abnormality or not (brightness can be adjusted freely according to the actual situation).
